PROFILE

I am a hard worker with more than 5 years of experience on Nuke. After an MA in Visual Effects, I joined Milk VFX as a Compositor in early 2023.

EXPERIENCES

Mar 2023 — Present

Milk Visual Effects , Compositor

London

As a Compositor, I worked on various projects since I joined. I contributed to look-developing some shots. Being a Python enthusiast I had the opportunity to create tools for the company and participate in conversations regarding the pipeline.

My credits at Milk include:

- - **To Be Announced** (series)

Creature integration with Deep Compositing Setup, face tracking using [Keentools](#)

- - **Genie** (film)

Smoke FX and scorch marks integration - CG integrations

- - **The Family Plan** (film)

DMP integration through Blue Screen windows

- - **Bodies** (series)

CG futuristic London integrated through Green Screen windows using Deep. FX simulation for time portal.

- - **Citadel** (series)

Screen integration, CG face replacement

Jan 2022 — Feb 2023

National Film and Television School, VFX supervisor - Short film

Beaconsfield

I supervised the Visual Effects of the Stop Motion Animation Short film "The Tornado Outside" directed by Maria Tomazo. [IMDb profile](#). I was in charge of the complete pipeline.

May 2022 — Jul 2022

National Film and Television School, Short film - Compositor

Beaconsfield

I worked on the award-winning short film " Reality Heist" directed by Oliver Lemery. [IMDb profile](#)
